

**Report Resolution Health Care in Danger – 32<sup>nd</sup> International Conference**  
**Additional material – Italian Red Cross**

Image 1: A replica of a health unit under attack during Solferino 2019. Visitors could have an immersive experience in two tents: one showed as a health unit should be and the other one showed a health unit evacuated after an attack with a medical operator dead.

Image 2: A replica of a health unit under attack during an activity in Udine (Italy) in a public square. The activity showed up a medical tent evacuated after an attack.

The Italian Red Cross campaign “Non sono un bersaglio” brings the Health Care in Danger campaign in Italy.  
The campaign included:

+100 IHL instructors specialized on HCD;

+1000 volunteers trained on HCD;

+150 training activities and exhibitions all over Italy.
